

Note To Teacher: Below are two pages for your students. Print pages 1 -2 on separate sheets of paper. Cut out a few of the car pictures and show your students how to place them on the sorting sheet (there is a square for each graphic). Then, allow them to complete the rest. When they are finished, instruct them to complete the questions.

Snowmen and Gingerbreadmen are showing up all around us. Cut out the pictures below and glue them to the correct space on your sorting chart.

Name _____ Date _____

Sorting Cars By Color

Sort each set into a square. Glue your pictures on the sheet. Count each set and write the number in the circle. Answer the questions about your sorting sheet.

| | | |
|---|--|--|
| <p>Box 1</p>  <p></p> | <p>Box 2</p>  <p></p> | <p>Box 3</p>  <p></p> |
| <p>Box 4</p>  <p></p> | <p>Box 5</p>  <p></p> | <p>Box 6</p>  <p></p> |

Answer These Questions about your sorting sheet!

1.) Which box has the most cars in it?

2.) Which box has the least cars in it?

3.) Which box has just three cars in it?

4.) Count ALL the cars. How many total?

5.) Do you have more cars in box 1 or box 6?
