

Name:	Date:	

Directions: Your teacher will give you a penny. After you answer the questions below, toss the penny until you fill up one of the columns. After each toss color in the correct square. When you have finished your graph, answer the questions.

		•	
What do you think will win the race, heads or tails?	How many tails do you think you will toss?		How many heads do you think you will toss?
			_
			1
			_
			-
	Heads	Tails	_

Now answer these questions about your graph.

Who won the race, heads or tails?	Did you guess the correct winner?	How many tails did you toss?
Did you guess the correct number of tails?	How many heads did you toss?	Did you guess the correct number of heads?

Now as a class work to answer these questions.

What won the most	How many students had	How many students had
times in your class,	heads win?	tails win?
heads or tails?
