What color heart did you have the most of?

What color heart did you have the least of?

How many pink and green hearts did you have altogether?

Did you have more blue hearts or orange hearts?

Pick three hearts and write what they say in the hearts below.

How many u's were on your hearts?

How many m's were on your hearts?

Add up all the letters on the three hearts. How many letters?

Now look at a friends graph and write the number of hearts they had next to each color below.
