These word wall activities are designed to be an interactive tool for students to use. Although typically associated with reading and writing instruction, word walls are becoming commonplace in classrooms for all subject areas due to their ability to foster phonemic awareness, display connections throughout word "families", serve as a reference for students, as well as create meaningful experiences with new vocabulary words. This set includes a display as well as activities. All files can be modified in word to meet your classrooms needs.

Word Wall Display — This file is in Word and PDF. You can modify this file in word. I have included all the Word Wall Letters for your display. Also included are the first 100 Fry Words. You can add more words since this is a editable document!!! The colors are cool blue and yellow. Goes great with our Ocean Decorations Packet as well!

Word Wall Center Sheets—Once you have your word wall set up, use it as a teaching tool and center! I have included worksheets that students can use at the word wall as part of center time. The sheets are:

ABC Order, Letters in My Name, Acrostic Word Wall, Word Wall Pipe Cleaner Bead It, Syllables in Word Wall Words, Word Wall Fractions, Drawing Word Wall Words, Word Wall Shopping, Word Wall Tally (These activities can be used more than once and are in word so that you can modify them if needed. Also, in PDF)

Bonus Sight Word Game—A Cookie themed sight word game that includes words on cookies, but you could modify the words in the game to match your word wall words.

Over 12 Pages of Resources for your Word Wall from Colleen Gallagher at Teaching Heart—Copyright 2002-2013
